

Course Title: WORKSHOP TECHNOLOGY – Wood (A)

Unit Title	Lines	Unit Description
Workshop Technology Wood 1	4 & 7	<p>This workshop course is for students to learn how to design and make their own projects out of a range of materials. It is equally suitable for students who are thinking of pursuing a trade or for students who would like to learn life-long leisure skills. Students will research, design and cost their own projects to be constructed out of wood, or a range of materials. Students are guided and encouraged to develop their own ideas into an individual project.</p> <p><i>This first unit is compulsory as it introduces Occupational Health and Safety (OH&S) issues.</i></p>
Workshop Technology Wood 3	4 & 7	<p>Students will research, design and cost their own projects to be constructed out of wood, or a range of materials. Students are guided and encouraged to develop their own ideas into an individual project. This creates an environment where a large range of projects are being constructed involving a wide range of materials, finishes, processes and equipment. This exposes students to a wide range of activities in a creative and interactive environment.</p>
